

# WELCOME TO OUR CLASSROOM

*"The goal of early childhood education should be to activate the child's own natural desire to learn"*

*---Maria Montessori---*

## Happy Spring

Now that the sunny weather has arrived, we need to think about sun protection. We are asking parents to **apply sunscreen before school**. We will re-apply after lunch time and please make sure your child has a **sun hat at school with their name on it**. The brimmed sun hat (with an extended back to shield children's neck) is best. It is also important that all children have their water bottle with them every day.

**Thank you for your cooperation.**

I would also like to welcome our new friend Holmes and his parents Sarah and Aaron

## Your Help

We have some fun projects scheduled for this month and I would love to have some help from all of you, if possible:

- An empty jar with your child's name on the bottom
- Gardening gloves labelled with your child's name.

Please bring these items in before **April 16<sup>th</sup>**.

Thank you.

We had lots of fun making our Easter eggs.

## Some action pictures

Please be respectful with the PICTURES that I share in the newsletters, don't share on social media. Thanks.

The third year in a Montessori preschool has sometimes been called the capstone year. It's the time when students put together all the different skills they have indirectly and directly prepared for throughout their Montessori toddler and preschool years.

## Artist of the Month

This month, we will be studying the Hubble Space Telescope. which creates the world famous galaxy images. Science and art are not as far apart as most people think, and the work done with Hubble is a perfect example. We will be creating our own color corrected Hubble image.

Earth Day is on **Thursday April 22<sup>nd</sup>**.

During the upcoming weeks we will start learning and talking about Earth Day, Our Solar System, Layers of the Earth and Sun, Phases of the Moon and Constellations.
