

WELCOME TO OUR CLASSROOM

*The greatest sign of success for a teacher ... is to be able to say,
'The children are now working as if I did not exist'
---Maria Montessori---*

The end of the school year is approaching fast. I've heard that mentioning the end of the school year as little as possible will keep stress levels down. In my experience, though, the reverse is true. Children will have mixed feelings about leaving their safe and happy environment, some children are excited, worried or both, so I think it's important to spend time talking about what's going on. We need to address the transition. As with every other aspect of school, the more time we spend setting children up for success, the better.

MMS 42nd Birthday Party

What a fun day. The children were so excited with all of the activities. We also enjoyed a special cupcake for our afternoon snack.

Earth Day April 22nd

Give the Earth a helping hand and that is what we did. We went on a neighborhood walk and picked up all the trash.

I would also like to welcome our new friend Melia and her parents Amy and John.

Another fun project we started is our Greenhouse. We put 2 types of beans in a zip lock bag and taped them on the window. We are now watching them grow.

Tadpoles and caterpillars

We started talking and studying about the life cycle of the frog, butterfly and ladybug. We have caterpillars and tadpoles in our classroom, so we can observe them in real life.

caterpillars and tadpoles in our classroom, so we can observe them in real life.

Some action pictures

Please be respectful with the PICTURES that I share in the newsletters, don't share on social media. Thanks.

Sydney is working with the trinomial cube

Tristan is working with the moveable alphabet.

Julian is building the Roman Arch.

Chloe is working with color box nr2 and matching the colors.
